## Projects Portfolio

We have successfully partnered with our clients worldwide and executed several projects. Our expertise ranges from cutting edge SaaS Web 2.0 collaboration platforms to high volume transaction processing applications.

### LiveHealthier

LiveHealthier provides award-winning corporate health, wellness and health promotion solutions, offering web-based programs and unlimited 24/7 access to a team of health coaches via email, live chat, webinar, videoconference and in-person consultations. LiveHealthier leverages its proprietary platform, which we built for them, to deliver highly customized health portals to employer groups. Clients range from a multinational corporation to a regional construction company.

For more details visit <http://www.livehealthier.com>

### MyStockFund

MyStockFund is a low cost fractional share, dollar based, saving and investing service enabling an automatic dollar cost averaging investment strategy for stocks and ETFs. We not only built the web site, but also built the backend applications using Microsoft .Net technologies which enables the user to buy and sell stocks in real time, scheduled buys, ACH integration to bank etc.
